

T-KTY82 temperature sensor

Product information:

The T-KTY82 temperature sensor is suitable for interior and exterior use. The sensor can be connected to equipment such as an KNX S-B4T-UP actuator.

Technical specifications:

Sensor sleeve dimensions: Length approx. 45 mm, diameter approx. 6 mm

Cable length: approx. 187 mm

Ambient temperature/

Measurement range: -40...+60°C

Sensor resistance at 25°C: 2 k Ω , \pm 20 Ω
