6. Available features for each type of AC Unit. / Características disponibles en cada modelo de A.A.

Supported Mitsubishi Electric AC unit models will differ from each other in the features they offer, with regard to following functionalities: / Los distintos modelos de A.A. soportados tienen distintas características a nivel funcional:

- Number of different operation modes / Distinto número de modos de operación
- Number of different fan speeds / Distinto número de velocidades de ventilador
- Number of different vane positions / Distinto número de posiciones de lamas
- Range of temperature set points, which may also depend on the mode of operation of the unit (heat, cool, ...) / Distinto rango de consignas de temperatura. Ésta también puede variar en función del modo de operación (Calor, Frío, ...)

All the indoor units listed supply the return (ambient) temperature measured by their sensor / Todas las unidades interiores listadas suministran la temperatura de retorno (ambiente) medida por su sonda

Only those values supported by the AC unit under control should be written in the appropriate signal. / Solo los valores soportados por el aparato de A.A. bajo control deberían ser escritos en la señal correspondiente.

This list shows the available features in each supported Mitsubishi Electric AC type. / La siguiente lista muestra las características disponibles para cada modelo de A.A. soportado.
